

Flexible Metal Hose Connector Cleaned for Pressurized Medical Air (Braided)

SPECIFICATION

Flexible Metal Hose Design

The flexible metal hose connector shall have a female NPT union at one end and a male NPT thread at the other. The inner hose shall be made of corrugated tubing. The outer sheath shall be heavy - woven braid. The corrugated tube and braid shall be made of non-corrosive metal. The hose shall be cleaned and capped for oxygen use.

Part Number	Size (NPT)	Length	Max. Pressure	Material	End Connections
CPL 07 014	1/2"	18"	125 psi	All Bronze	Male Nipple x Female Union (M x F)
CPL 07 015	3/4"	18"			
CPL 07 016	1"	18"			
CPL 07 017	1-1/4"	18"			
CPL 07 018	1-1/2"	18"			
CPL 07 019	2"	18"			
CPL 07 020	2-1/2"	18"			
CPL 07 021	3"	18"			

****Note: Flexible metal hose connectors are provided as standard equipment on all LifeLine® complete air and vacuum systems.**
