

Medical Gas Terminal Unit - East and Zeus SP

SPECIFICATION

The East and Zeus SP Medical Gas Terminal units provide a safe means of supplying medical equipment with medical gases from the central gas supply system. They are manufactured to accept only the gas specific probes to prevent interchangeability between different types of services. The East and Zeus SP gas- specific terminal units are attached permanently via copper tube or semipermanently via medical gas hose assemblies to the facility gas distribution pipeline system and allow mechanical connection to and gas flow through a suitable connector.

Classification

- Gas and vacuum specific terminal units designed to BS EN 9170-1.
- AGSS terminal units designed to BS EN 9170-2.
- Gas and vacuum specific terminal units are compatible with medical gas probes to BS 5682.
- AGSS Terminal Units are compatible with medical gas probes to BS 8532.
- Carbon Dioxide and Nitrogen designed to accept NIST probes to BS EN 18082.
- CE marked with approval from a notified body (more detailed information available on request).

Services

- Oxygen
- Nitrous Oxide
- 50% Oxygen / 50% Nitrous Oxide
- Air 400 kPa
- Air 700 kPa
- Medical Vacuum
- Carbon Dioxide
- Nitrogen
- AGSS

Terminal Block

- Machined brass incorporating seal plate, check valve and brazed Copper stub pipe
- Gas and vacuum indexed
- Fully degreased for Oxygen use

Check Valve Assembly

- Machined brass incorporating spring operated shut-off valve
- Fully degreased for Oxygen use

Tailpipe Block

- Top, bottom, left and right side entry

Socket Assembly

- East SP
 - Zinc die-casting
 - Black Teflon coated body
 - Copper / zinc finished interlock ring
 - Stainless steel rolling pins
- Zeus SP
 - Moulded polymer
 - Teflon coated stainless steel rolling pins

Wall and Bedhead Mounted Fitting. Top, Bottom, Side or Back Entry tailpipe

Installed Size	Height 79 mm; Width 79 mm	Height 79 mm; Width 79 mm	Height 99 mm; Width 99 mm
Protrusion (from wall) ¹	65 mm	15 mm	n.a.
Depth into wall	Nil mm	50 mm	n.a.

Note:

- For Carbon Dioxide & Nitrogen consult BeaconMedaes Technical department.
- All dimensions are in millimetres;
- Image also includes additional components, see Options table.
- Recommended installation height for all wall outlets is 900 to 1400 mm above floor level;

Options:

	Accessories	Product Description
1	Socket and check valve assembly	Gas specific
2	Plaster Shield	3268005
3	Installation kit ¹	4233 3002 36
4	Flush surround	3268009
5	Terminal block	Gas specific
6	Bedhead mount ² 'Installation Kit'	3268008

¹ Installation kit consist of: back box, cover box, surface fascia - white ABS.

² Bedhead mount 'Installation Kit' is not required in case of wall mount.

Pendant Mounted

Classification

- Gas and vacuum specific terminal units designed to BS EN 9170-1.
- Terminal units compatible with medical gas probes to BS 5682
- Soldered NIST connections are designed to BS EN 15908 & 5359
- Carbon Dioxide and Nitrogen designed to accept NIST probes to BS EN 15908 and 5359
- CE marked

Services

- Oxygen
